Education

University of Toronto

Honours Bachelor of Science,

Major: Geographic Information Systems

Minors: Computer Science, Mathematics

Toronto, ON

Expected: May 2021

Skills

Languages: JavaScript(ES6)/TypeScript, HTML5, CSS3, Python, C, Java, SQL

Frameworks/Libraries: React.js, Node.js, Express.js, Bootstrap, Ajax, Jest, Puppeteer

Tools: Git, Linux, MongoDB, Docker, Kubernetes

Projects

Covid-19 Shopping App

[Website](#) | [Code](#)

A web app designed to assist people who are at risk with grocery shopping via their local community

- Constructed with React.js, Bootstrap, Node.js, Express.js and MongoDB
- Collaborated with a team to build a full-stack web application
- Participated in using industry software engineering practices such as creating design documents and scrum meetings
- Added user authorization which involved multiple tiers such as user, group administrator and server administrator
- Implemented features like synced grocery lists between user groups and administrator panel for database manipulation

Asset Portfolio Tracker

[Code](#)

A stock portfolio tracker which calculates asset and portfolio values throughout the day

- Built a full-stack app with React.js, Node.js, Express.js and MongoDB
- Integrated libraries like react-cookie, mongoose, axios, as well as bcrypt, to manage authentication and user state
- Designed a REST API to assist the front-end with displaying user portfolios
- Used an external API to retrieve stock data

2D Front-End Game Engine

[Website](#) | [Code](#)

A retro style game engine which allows users to develop their own arcade style shooters

- Used HTML, CSS and JavaScript
- Developed a 2D game engine with features like movement, projectiles, and user interface elements
- Focused on making interactive 2D retro games easier to develop in as few lines of code as possible

Experience

Tim Hortons

Supervisor,

Mississauga, ON

September 2014 – December 2018

- Oversaw all store operations when present
- Solved problems quickly in a fast-paced, high stress environment
- Created and implemented a system to improve drive-thru service times by over 30% during peak hours
